

Crane® Snow Premium is ALDI's top of the range premium ski apparel, suitable for all seasons. Alpinists and hardcore users can benefit most from the superior functionality of the garments and accessories in this exclusive range.

Crane® Snow Extreme apparel is a range of specialist snow wear garments, ideal for adults and kids who require exceptional value and quality ski or snowboarding products. Casual as well as serious users will benefit from the high functionality of these garments.

## KEEP OUT THE WET

Stay dry by choosing gear with a waterproof rating that fits your needs. The higher the rating, the longer it will hold up in rain and snow.

## HIGH PERFORMANCE

Designed between Australia and Austria and loaded with innovative tech, our high performance, stylish gear is made to suit weather conditions from The Alps to Australia.

## POCKET UP

Built for wet conditions, our pockets and zips keep your valuables safe and organised on the slopes. Our jackets even have an easy-to-reach ski lift pass pocket in the sleeve.

## NIFTY SKIRTS AND CUFFS

These stop snow and chilly air from entering jackets and pants via the jacket hem and pant leg. Our anti-slip tape also prevents garments from riding up.

## DUPONT™ SORONA® WADDING

This powerful, renewably-sourced fibre keeps our Crane® Snow outer garments insulated, breathable, moisture resistant and heat retentive in freezing conditions.

## JUST BREATHE

You won't be working up a sweat with our breathable gear. For maximum comfort, we've added breathable mesh vents to enable airflow to the underarm and inside leg without letting in chilly air (selected styles).
