

# SAFETY DATA SHEET

SDS Version Number: 1.0

SDS Version Date: 7/03/2018

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name	TRICARE Liquid Hand Wash 250ml & TRICARE Liquid Hand Wash Refill 1L
Other Names (if applicable)	Antibacterial, Aloe & Chamomile, Pomegranate & Mango, Milk & Honey
Product Code	51603 250ml & 51545 1L
Barcode Number	26335117, 26335087, 26335124, 26335100 & 26335056, 26335070, 26335063, 26335032
Recommended Use	Personal care-rinse off
Company Name	ALDI STORES (A Limited Partnership)
ABN	90 196 565 019
Street Address	1 Sargents Road, MINCHINBURY, NSW 2770
Telephone Number	+61 2 9675 9000 ( 8:30am - 5:00pm )
Supplier Code	02176
Other Emergency Phone Number	Australia - 13 11 26 (Poisons Information Centre)

## 2. HAZARDS IDENTIFICATION

### Classification of the substance or mixture

According to the WHS Regulations and the ADG Code.

Not classified as hazardous according to the criteria of SWA.

Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

**SUSMP Classification:** None allocated.**ADG Classification:** None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.**UN Number:** None allocated

### Label elements

GHS label elements	Not Applicable			
Signal Word	Not Applicable			

### Hazard statement (s)

Not Applicable

### Precautionary statement (s)

<b>Prevention Statement (s)</b>
P281: Use personal protective equipment as required.
<b>Response Statement (s)</b>
P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P332+P313: If skin irritation occurs: Get medical advice.
P370+P378: Not combustible. Use extinguishing media suited to burning materials.
<b>Storage &amp; Disposal Statement (s)</b>
P404: Store in a closed container.
P410: Protect from sunlight.
P501: If they can not be recycled, dispose of contents to an approved waste disposal plant and containers to landfill (see Section 13 of this SDS).

### Other hazards

None

1.0

# SAFETY DATA SHEET

SDS Version Number: 1.0

SDS Version Date: 7/03/2018

## 4. FIRST AID MEASURES

For advice, contact Poisons Information Centre (phone Australia 13 11 26) or a doctor

(For each route of exposure provide indication of medical attention and special treatment needed including description of most important symptoms, acute and delayed)

General Information	You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.
Inhalation	First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.
Skin Contact	Irritation is unlikely. However, if irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.
Eye Contact	No effects expected. If irritation does occur, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed. Obtain medical advice if irritation becomes painful or lasts more than a few minutes. Take special care if exposed person is wearing contact lenses.
Ingestion	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.
Note to Physician	None

## 5. FIRE FIGHTING MEASURES

Hazards from combustion products	The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. This product is likely to decompose only after heating to dryness, followed by further strong heating. Fire decomposition products from this product may be toxic if inhaled. Take appropriate protective measures.
Precautions for firefighters and special protective equipment	If a significant quantity of this product is involved in a fire, call the fire brigade.
Suitable / Unsuitable extinguishing material	Not combustible. Use extinguishing media suited to burning materials.

## 6. ACCIDENTAL RELEASE MEASURES

Accidental Release	Minor spills do not normally need any special cleanup measures. In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum, wear overalls, goggles and gloves. Suitable materials for protective clothing include no specific manufacturer recommendations. Use impermeable gloves with care. Eye/face protective equipment should comprise, as a minimum, protective glasses and, preferably, goggles. If there is a significant chance that vapours or mists are likely to build up in the cleanup area, we recommend that you use a respirator. Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned below (section 8). Stop leak if safe to do so, and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. If spill is too large or if absorbent material is not available, try to create a dike to stop material spreading or going into drains or waterways. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage, and dispose of promptly. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.
--------------------	--

## 7. HANDLING AND STORAGE

Precautions for safe handling	Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.
Conditions for safe storage	Store packages of this product in a cool place. Make sure that containers of this product are kept tightly closed. Protect this product from light. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10. Some liquid preparations settle or separate on standing and may require stirring before use. Check packaging - there may be further storage instructions on the label.

SDS Version Date: 7/03/2018

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National Exposure Standards

Not set

Engineering Controls

This product should only be used where there is ventilation that is adequate to keep exposure below the TWA levels. If necessary, use a fan.

Australian Safety Standards

The following Australian Standards will provide general advice regarding safety clothing and equipment: Respiratory equipment: AS/NZS 1715, Protective Gloves: AS 2161, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: AS1336 and AS/NZS 1337, Occupational Protective Footwear: AS/NZS2210. Exposure limits have not been established by SWA for any of the significant ingredients in this product. No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Eye Protection.

Eye protection such as protective glasses or goggles is recommended when this product is being used.

Skin Protection

The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when lengthy skin contact is likely.

Protective Material Types

There is no specific recommendation for any particular protective material type.

Respirator

Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Viscous liquid, colour varies by variety
Colour	Colour depends on the variant
Odour	Fragrance Odour
pH	3.5-5.5
Specific Gravity or Density	1.010-1.060
Vapour Pressure	2.37 kPa at 20°C (water vapour pressure).
Vapour Density	As for water.
Percent Volatiles	Water component.
Boiling Point Range	Approximately 100°C at 100kPa.
Freezing/ Melting Point	Approximately 0°C.
Solubility	Completely soluble in water.
Flash Point (include method detection)	Will not burn until water component is driven off.
Flammability Limits	Does not burn.
Ignition Temperature	Does not burn.
Other	Viscosity - 4000-9500cps

## 10. STABILITY AND REACTIVITY

Reactivity	This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.
Chemical Stability	Product is considered stable under recommended conditions.
Conditions to avoid	This product should be kept in a cool place, preferably below 30°C. Keep containers tightly closed. Protect this product from light.
Incompatible Materials	Acids, bases, oxidising agents.
Hazardous Decomposition Products	This product is likely to decompose only after heating to dryness, followed by further strong heating. Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Water is also formed. May form oxides of sulfur (sulfur dioxide is a respiratory hazard) and other sulfur compounds. Most will have a foul odour. Sodium compounds. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.
Hazardous Reactions	Polymerisation reactions are unlikely; they are not expected to occur.

## 11. TOXICOLOGICAL INFORMATION

### Health Effects

Ingestion	<b>Short Term Exposure:</b> Significant oral exposure is considered to be unlikely. Available data shows that this product is not harmful. However, this product may be mildly irritating to mucous membranes but is unlikely to cause anything more than mild transient discomfort. Varieties of this product may contain allergens which may cause adverse reactions in some individuals. <b>Long Term Exposure:</b> No data for health effects associated with long term ingestion.
Eye Contact	<b>Short Term Exposure:</b> This product may be irritating to eyes, but is unlikely to cause anything more than mild transient discomfort. <b>Long Term Exposure:</b> No data for health effects associated with long term eye exposure.
Skin Contact	<b>Short Term Exposure:</b> Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition product is unlikely to cause any discomfort in normal use. <b>Long Term Exposure:</b> No data for health effects associated with long term skin exposure.
Inhalation	<b>Short Term Exposure:</b> Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation. <b>Long Term Exposure:</b> No data for health effects associated with long term inhalation.
Long term effects	<b>Long Term Exposure:</b> No data for health effects associated with long term ingestion, inhalation, eye contact or skin contact.
Acute Toxicity/ Chronic Toxicity: (ie LD <sub>50</sub> )	Not Available for product mixture.

## 13. DISPOSAL CONSIDERATIONS

Disposal methods  
(including container disposal)

This product may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. If it has been contaminated, it may be possible to reclaim the product by filtration, distillation or some other means. If neither of these options is suitable in-house, consider controlled incineration, or contact a specialist waste disposal company.

Special precautions for landfill or incineration

None

### Key/Legend to Abbreviations and Acronyms used in the SDS:

#### Abbreviation/Acronym

#### Meaning

ADG	Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS	Australian Inventory of Chemical Substances
APVMA	Australian Pesticides and Veterinary Medicines Authority
AQIS	Australian Quarantine and Inspection Service
AS	Australian Standard (as issued by Standards Australia)
ASCC	Australian Safety and Compensation Council
DG ERG Code	Dangerous Goods Emergency Response Guidebook Code. The Emergency Response Guidebook is used by first responders (eg firefighters, police officers and ambulance personnel) when responding to a transportation emergency involving hazardous materials.
IATA	International Air Transport Association
IMDG	International Maritime Dangerous Goods
LD <sub>50</sub>	The median lethal toxicological dose, LD <sub>50</sub> is an abbreviation for "Lethal Dose, 50%". of a toxic substance. This is the dose required to kill half the members of a tested population.
NOHSC	National Occupational Health and Safety Commission
SDS	Safety Data Sheet
STEL	Short Term Exposure Limit - A 15 minute TWA exposure which should not be exceeded at any time during a working day even if the eight-hour TWA average is within the TWA exposure standard. Exposures at the STEL should not be longer than 15 minutes and should not be repeated more than four times per day. There should be at least 60 minutes between successive exposures at the STEL.
TGA	Therapeutic Goods Administration
TLV	Threshold Limit Value - TLV is a proprietary name registered by the American Conference of Governmental Industrial Hygienists (ACGIH) and refers to airborne concentrations of substances or levels of physical agents to which it is believed that nearly all workers may be repeatedly exposed day after day without adverse effect.
TWA	Time Weighted Average - The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day working week.
UN Number	UN numbers are four-digit numbers that identify hazardous substances, and articles (such as explosives, flammable liquids, toxic substances, etc.) in the framework of international transport.

This SDS has been prepared by the ALDI Stores product supplier from current technical data and summarises at the date of issue their best knowledge of the health and safety information of the product, and in particular how to safely handle and use the product in the workplace.

This SDS may only be reproduced in full. Summaries or excerpts from this SDS may not contain all the relevant information and thus are not permitted.

ALDI Stores gives no warranty and makes no representation as to the accuracy, reliability or completeness of the information contained herein.

The user should make their own determination in light of their own circumstances as to the suitability of this information and the safe conditions for the use of this product. To the extent permitted by law, ALDI Stores will not be liable for any loss, damage or expense arising from the use of this SDS, whether caused by the negligent act or omission of ALDI Stores or otherwise.
